

Leader of the Quarter
Maureen Denizard
Health Clinic Supervisor

This leader has inherited multiple departments within the last year, has patiently listened to the staff through this very difficult change and transition. Is a quiet and efficient leader; a role model a consummate professional. This leader has learned a lot the new role, has taken a few hits, bumps and bruises during the process and has had a fair share of successes along the way. Our leader is proud of their staff and will take a bullet if necessary advocating for them, the clients and the community.

Maureen is our face of Public Health!

Faces of Public Health
