

## Welcome to The Florida Department of Health in Seminole County

Quality healthcare, education, community partnerships and surveillance serve as the foundation of The Florida Department of Health in Seminole County's variety of services. With a focus on quality, using customer feedback and data-driven decision making, we accomplish our mission to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

Vision: To be the Healthiest State in the Nation

## About the Dental Care Program

At the Dental Care Program at the Florida Department of Health in Seminole County we look forward to helping our patients care for their smiles.

Our office is conveniently located inside the health department which allows for easy access to other healthcare services such as WIC, Healthy Start, Prenatal Care and Immunizations.

Each room is clean, fresh and has a hand-painted mural painted by local muralists. Can you find the toothbrush in each mural? Come see for yourself!

## Your Dentist

Victor First, DDS, came to the Florida Department of Health in Seminole County in 1980. Dr. First graduated from Winter Park High School and received his Dentistry

Degree from Northwestern University Dental School in Chicago, Illinois in 1979.

Dr. First's objective is to serve not only individual patients who have difficulty in accessing the system, but also to help the community in preventing dental disease.

As recommended by the American Dental Association, Dr. First encourages dental visits every six months, brush and floss daily. Healthy teeth and gums are not a luxury. They are essential!

## Why is Dental Care Important?

Dental care is vitally important to overall health and well-being. Research has shown a link from lack of dental care to diabetes, heart and lung disease, stroke, respiratory illnesses and conditions of pregnant women including the delivery of pre-term and low birth weight infants.

## What People are Saying...

*"Everyone was very nice and respectful to me." -Dental Care customer*

*"They were very sweet and so helpful. I had a really good experience and would like to keep coming back for more visits and check ups."*

*-Dental Care customer*
