PARTICIPATION IN THE HEALTH INFORMATION EXCHANGE NETWORK

Access to information about your health history, societal and behavioral factors, and medical care is critical to help ensure that you receive high-quality care and gives your health care provider a more complete picture of your overall health. This can help your provider make informed decisions about your care. The information may also prevent you from having repeat tests, saving you time, money, and worry. Recent advancements in technology now support the safe and secure electronic exchange of important clinical information from one health care provider to another through Health Information Exchange (HIE) networks. The Department and its county health departments participate in an HIE network and also participate in several HIE

networks with trusted outside health care providers to quickly and securely share your health information electronically among a network of health care providers, including physicians, hospitals, laboratories and pharmacies. Your health information is transmitted securely and only authorized health care providers with a valid reason may access your information. By sharing information electronically through a secure system, the risk that your paper or faxed records may be misused or misplaced is reduced.

Participation in HIE is completely your choice.

Choice 1. YES to HIE participation. If you agree to have your medical information shared through HIE and you have a current Initiation of Services form on file, you need not do anything. By signing that form, you have granted the Department permission to share your health information through the HIE.

Choice 2. NO to HIE participation. You can choose to not have your information shared electronically through the HIE network (opt out) at any time, by completing the Health Information Exchange Opt-Out Form available at the county health department. If you decide to opt out of HIE, health care providers will not be able to access your health information through HIE. You should understand that if you opt out, the health care providers treating you are still permitted to contact the Department to ask that your health information be shared with them as stated in this Notice of Privacy Practices. Opting out does not prevent information from being shared between members of your care team. Please note, opting out does not affect health information that was disclosed through HIE prior to the time you opted out.

Choice 3. You may change your mind at any time.

You may consent today to the sharing of your information via HIE and change your mind later by following the instructions on the opt out form described under Choice 2.

Alternatively, you may opt out of HIE today and change your mind later by submitting the Department's Revocation of HIE Opt Out Request Form.

PERSONAL HEALTH RECORDS (PHR) MOBILE APPLICATION SYNCHRONIZATION WITH USER DATA

As part of the services provided by the Department, you can download the companion PHR mobile application to access your personal health records. This application is the mobile version of the Florida Health Connect portal.

The purpose of the PHR mobile application is to provide you with access to your health information through your mobile device. You can synchronize your Florida Health Connect account through the mobile application with your personal health information captured on your mobile device (Google Fit or Apple Health) to provide you with a 360 degree view of your health history and current health status.

Your Google Fit or Apple Health information will not be disclosed to any third parties without your express written permission.

DEPARTMENT OF HEALTH DUTIES

The Department is required by law to maintain the privacy of your protected health information. This Notice of Privacy Practices tells you how your protected health information may be used and how the Department keeps your information private and confidential. This notice explains the legal duties and practices relating to your protected health information. The Department has

the responsibility to notify you following a breach of your unsecured protected health information.

As part of the Department's legal duties, this Notice of Privacy Practices must be given to you. The Department is required to follow the terms of the Notice of Privacy Practices currently in effect.

The Department may change the terms of its notice. The change, if made, will be effective for all protected health information maintained by the Department. New or revised Notices of Privacy Practices and all forms referenced in this Notice of Privacy Practices may be accessed on the Department's website at <https://www.floridahealth.gov/about/patient-rights-and-safety/hipaa/index.html> and will be available by email and at all Department of Health locations. Also available are additional documents that further explain your rights to inspect, copy, or amend your protected health information.
